

School Nursing: An Orientation

AUGUST 13-14, 2019

LOCATION:

Pax Christi (enter door #6)
12100 Pioneer Trail
Eden Prairie, MN 55347

SPONSORED BY:

School Nurse Organization of Minnesota
Minnesota Department of Health

ABOUT THE PROGRAM

This two-day orientation program for Licensed School Nurses provides a framework for practice for baccalaureate-prepared nurses who are new to the school nurse role. This program is for RN/Licensed School Nurses with 5 years or less experience in School Nursing.

Presentations cover required and essential components of school health services in Minnesota elementary and secondary schools.

Licensure as a School Nurse is provided by the Minnesota Professional Educator Licensing and Standards Board (PELSB). Prerequisites include a bachelor's degree from a regionally accredited school of nursing, RN licensure and public health nursing certification, both from the Minnesota Board of Nursing.

OBJECTIVES

At the conclusion of the program, participants will be able to:

- ✓ Apply the Nurse Practice Act and *Scope and Standards of Practice* for school nursing in his/her new role including the legal issues related to supervision and delegation and documentation.
- ✓ Describe nursing assessment and strategies for management of population-based and individual student education-related health needs such as children's episodic illnesses, chronic diseases, injuries and infectious disease control and prevention.
- ✓ Summarize the school nurse role in development of student individualized healthcare plans, emergency care plans, crisis response plans, individualized education program plans and 504 plans.
- ✓ Identify partnerships in schools and communities to which school nurses are key contributors – public health team, school health team, wellness councils, student support services, emergency preparedness, early childhood and the school nurse role in health teaching and counseling.

This program is offered at low cost due to support from the sponsors: School Nurse Organization of Minnesota (SNOM) and Minnesota Department of Health (MDH).
